

## Sports Premium Funding Impact Statement: 2015-16

At St. Gregory's we have measured the impact of the Sports Premium Funding 2015/2016. The Sports Premium funding for St Gregory's for 2015-16 was £10,323 and we have highlighted the measurable outcomes as a result of the funding:

Our funding has been spent on the following:

- Willow Tree Partnership – 6248.33
- Sports equipment – 1335.92
- ECT registration – 20.83
- The bicycle society – 2718.22

- Continued to work with the Willow Tree Partnership of Schools- providing inset, coaching, competitive sport and the opportunity to evaluate annually our success in providing an all round P.E. programme.
- Delivered high quality insets to staff to use our new scheme of work to implement the new National Curriculum.
- Provided an increased number of staff with opportunities to attend PE training courses.
- Continued to ensure we provided KS2 children with high quality swimming coaching.
- Increased the amount of competitive sport in which the school partakes.
- Supported an increased number of staff members running / supporting after school clubs.
- Providing a larger amount of places in after school clubs.
- Maintained the range of after school clubs being offered.
- Increased the number of Year Groups participating in sports/clubs/competitions and events from Years 1-6.
- Supported Young Ambassadors through their training program and monitored their level of skill application while running a Change for Life Club.
- All children in the school have been exposed to bicycle training from Reception to Year 6
- Children in Year 5 have had access to a term of Bikeability training

Having measured the impact of the Sports Premium funding, the above statements reflect the hugely positive impact the funding has had on PE and Sport in St. Gregory's Primary School. Our school is striving for 'Gold' in the Sainsbury's School Games Kitemark. We have put an Action Plan in place in partnership with the Willow Tree Schools Sports Partnership and this will be reviewed in September 2016 with the view of maintaining 'Gold'. Our school has noticed a measurable and sustained improvement in school PE and sport, underpinned by high-quality teaching that increases participation levels in physical activity. This directly leads to healthier pupils who are more engaged across the whole curriculum, strongly supported by our Young Ambassadors. It is our belief that having entered a wide variety of competition and activities during this academic year, the children will be interested in attending or taking part in a club that they know is offered in from Years 1-6 next year.

Olivia Doogan and Niall McGinn
